

SALT PLATFORM WITH HUB HAVING LOCKING ELEMENT

A salt platform (700) is disclosed which incorporates a series of hubs (702), radial braces(704) and curved braces(706) which are snap fit together by use of mating locking members(734) and locking slots (716). The curved braces (706) can be formed with pipe holders to support pipe section(710,712) and pipe elbows (714). A stub spoke(750) can be used if desired.
